

Aspire, Rising Stars and Reach Out @ Centrestage provide activities across the creative and performing arts that allow children, young people and adults of different abilities to fully participate as vital members of our Centrestage community.

Our move to the Centrestage Village in 2020 will allow even more opportunities for accessible, integrated activities across the site every day, not only for participants, but for friends and family too, supporting more relationships to be built, friendships to be formed and potential to be unlocked.

Our Aspire2Perform company has grown in size, ability and achievement over the years, with the small scale showcases of the early days developing into full scale productions, with "Grease Is The Word", "Mamma Mia , It's Aspire" and "Do You Hear Aspire Sing?" delighting our audiences.

We are so excited for this year's Pantomime extravaganza!
