

Centrestage Enterprise is our artistic engine that designs and creates a wide range of products that we use every day across all of our Centrestage activities from our #oneteam uniform, props for productions to various merchandise products that we retail to support wider charity activity.

Enterprise is not only the creation station, but an essential part of the wider training and development of our Catalyst and Connect participants with many of them actively getting involved in various stages of the manufacturing process, these essential skills support personal development and trigger entrepreneurial mindsets with many sharing ideas of their own business aspirations.

We very much champion environmental care and we strive to ensure sourcing is from ethically responsible organisations - doing our bit for the planet.

If you're looking for branded mugs, keyrings or printed t-shirts to something more bespoke - get in touch for more information.

Centrestage Enterprise | *we can make it!*
